FILEMAKER PRO TRAINING

ABOUT THE TRAINING

1. Our courses are taught by consultants who are experienced experts; they bring valuable practical experience to the class.
2. All classes are taught in hands-on classroom settings.
3. Class sizes ranging from four to six students.
4. Due to the complexity and the intensity in preparation involved in each course, classes that do not meet minimum students requirement will be cancelled and fees will be refunded.
5. Classes will be held at:
Suite 215, 9148 – 23rd Avenue, Edmonton, T6N 1H9
Telephone: 780-425-6905
6. Class time: 9:05 AM – 4:05 PM. Lunch break from 12:00 PM – 1:00 PM.
7. On-site training classes can be arranged upon request.
8. You can cancel your registration any time up to 10 days prior to the start date of the course.

FILEMAKER PRO TRAINING

FM02: DATABASE DESIGN II

Level: Intermediate

Duration: 12.00 hours (Two day)

Fee: \$398.00

Minimum class size: 4–6 (max)

On-site training class can be arranged upon request.

TOPICS INCLUDED

1. Data Modeling

Learn how to define entities and attributes and how to detect simple and complex relationships between entities. You will understand the concept of primary and foreign keys and you will create an Entity Relation Diagram (ERD).

2. Understanding Scripts

Learn how to create, edit and attach scripts to your layout. How to create static and dynamic searches and understand the looping techniques. Learn how to interact with the user. Discover how to create and set script triggers and putting complex scripts together.

3. Working with Layouts

Create different types of value lists and learn how to control the objects on your layout. Create custom menus and Tabs to classify your data, Add portals in your layouts to access multiple tables.

4. Advanced Reporting

Learn how to plan for your reports and the basis of subsummary reporting. You will build reports without body parts and you will learn how to add charts to your reports and layouts.

5. Adding Security

Learn how to manage who can get in your database in the first place and what they can do once they are there.

WHO SHOULD ATTEND?

This class is aimed at users who want to build and use a FileMaker Pro database. It is ideal for students who have used FileMaker before and would like to take their experience to the next level.
